## HIGGINS REFUSES TO ANSWER QUESTIONS IN CONSPIRACY CASE

Defense Witness Silent On Queries Regarding Money Paid

Cleveland, June 4.—Peter J. Higgins, wealthy former liquor dealer of Youngstown who has already pleaded guilty to conspiracy charges in connection with the release and distribution of thousands of gallons of whiskey from the Hayner distillery at Troy, Ohio, in 1921, and 1922, left the stand in federal court today after refusing to answer five questions propounded by Walter D. Meals of defense counsel.

Through these questions the defense sought to link up the name of Samuel Ungerleider, Cleveland broker, with the conspiracy for their alleged part, in which J. E. Russell, suspended federal prohibition director of Ohio; Merle B. Copeland, his suspended chief clerk, and Warren E. Barnett, Columbus, attorney, are on trial in federal district court here.

Higgins in each instance refused to answer questions upon the grounds that they might tend to incriminate him in other possible prosecutions.

"How many times between November 1921 and November 1922, did you visit Sam Ungerleider's office?" was Meals first question.

When Higgins refused to answer, Meals read into the record an offer to prove that Higgins had been a frequent visitor at the brokerage firms headquarters.

"From November 1, 1921 to November 1, 1922, did you pay Sam Ungerleider any money?" was the next question, followed by the following:

"How much money did you pay Sam Ungerleider?"

"Isn't it a fact that you paid Sam Ungerleider \$52,000?"

"Did you not pay \$52,000 to Sam Ungerleider for Hayner whiskey?" Higgins then left the stand.

## LIQUOR PROOF WALL OBJECTIVE OF RUM WAR SAYS ANDREWS

Hope To Cut Off Supply Of Owners Of "Best Cellars" Says Prohibition Marshal

Washington, June 4.—A liquor proof wall, extending entirely around the United States to smuggling of goods permanently is the objective of the government's rum war, the treasury disclosed today.

To cut off the liquor supply of those, who, with well stocked cellars, have laughed at the Volstead act, is among the prime purposes of the "whiskey crusade" General L. C. Andrews, field marshal of the prohibition forces, declared.

"I believe we can make the borders and the coast lines as difficult for the liquor smuggler to reach, as though they were an armed enemy," Andrews told the International News Service.

Details of a general plan to bring about observation of the dry law are being worked out by Andrews, who was selected by President Coolidge to head enforcement and to co-ordinate the activities of various agencies.

## DRYS ELATED OVER DEFEAT OF BILL TO MODIFY DRY LAW

Bill Would Have Repealed Illinois Prohibition Law And Seizure Act

Springfield, Ill., June 4.—Dry members of the house are jubilant today over the defeat of the bill which makes impossible any modification or repeal of the Volstead act in Illinois for the next two years.

The anti-Saloon league finally and utterly smashed the bill to repeal the Illinois prohibition law and the so-called search and seizure act, and then rubbed it in by advancing to third reading of the bill to create offices in the state prohibition enforcement department staff under the direction of the attorney general. This bill already has passed the senate.

The drys need seventy-seven votes for its passage in the house before going to the governor. Scenes of wild disorder attended practically all stages of debate on the prohibition measure with caustic personalities indulged in frequently.

## FRENCH ASTRONOMER AND AUTHOR DIES

Paris, June 4.—Camille Flammarion, the famous French astronomer and author died today at Juvisy where he was head of the observatory, according to the newspaper La Liberte. He was eighty three years old.

Camille Flammarion, one of the greatest astronomers of the century was best known for his repeated assertions that Mars is inhabited.

In addition to many standard books on astronomy he wrote "death and its mystery" and mysterious psychical forces.

He founded the astronomical society of France in 1887.

## DEATH TOLL REACHES SEVEN IN NEW YORK; STORMS CLAIM MANY

Present Warm Wave Covers Country—Expect High Mark

New York, June 4.—The death toll in the heat wave in New York and vicinity today stood at seven, and there was no relief in sight.

"Continued warm" was the forecast.

The hot weather, according to advices, encompassed the eastern states again this morning and there were reports of numerous prostrations.

Thousands of persons thronged the parks and beaches in and near New York City today to get some relief from the oppressive heat.

It was 81 above here at midnight. Then the mercury dropped slowly and steadily until six a. m. when it was 74. Again the mercury rose until at nine o'clock this morning it was 78.

At the weather bureau it was expected a high mark would be reached today before showers and cooler weather comes tonight or tomorrow.

Chicago, June 4.—No relief is in sight at present in the heat wave, weather officials stated here this morning.

In several sections of the middle west the heat wave brought violent damaging rains and windstorms of tornado proportions. Many persons were killed in the storm. In the region around Minneapolis six deaths were reported. In Iowa eight have been killed since Monday by the storms that accompanied high temperatures. In Nebraska four persons met death in small tornadoes.

With the heat wave Chicago felt an increase in the mosquito scourge. Officials are directing a fight against the pests.

A gradually increasing breeze from the west, carrying light fleecy clouds gave promise today of the end of the heat wave which has held Greene County for the past five days.

However, the official government forecast for Ohio with its "fair and warmer" offered no such hope to the state at large. The barometer readings showed no increasing of pressure which would portend rain.

The thermometer at Sohn's drug store here read 93 at noon.

The cooling breeze made conditions much more bearable than during the preceding days.

Farmers throughout the county reported no appreciable water shortage. It was believed that crops suffered little or no damage from the heat.

The full force of the heat appeared to be moving eastward and Thursday centered along the Atlantic seaboard where many prostrations were reported.

Cleveland, Columbus, Cincinnati and other large cities in Ohio reported casualties which were attributed to the heat.

## COMMITTEE PROBES PRISON OPERATION

Columbus, O., June 4.—Study of state prisons with a view toward greater economy in operation and especially greater economy in completion of construction of the new London prison farm will be opened today by the special legislative prison committee created by the last legislature.

Revision of the whole state prison system is contemplated by the committee.

State Welfare Director Baker, Warden Thomas of Ohio State penitentiary, Columbus; W. F. Amrine, superintendent of the London prison farm and Mrs. Louise Mittendorf, superintendent of Marysville prison, for women, are expected to attend the meeting.

## ARMORED CARS SENT TO REPULSE CHINESE STRIKERS IN SHANGHAI; GUARD LEGATIONS

London, June 4.—Armored cars were sent today to the western district of Shanghai where Chinese had concentrated and were in control of the suburb, according to dispatches reaching here. The strike began with a walkout of Chinese employed in the Japanese cotton mills in and about Shanghai and then spread to other industries.

Two British warships have arrived and all legations are under a strong guard. The "anti-foreign disorders" now involve Shanghai, Peking and Canton and the movement is spreading.

The somber garb of Mrs. Julie Shepherd (right) was contrasted with the modish apparel of her companion, Mrs. Fred K. Weston, as both sat in the Chicago courtroom during the trial of William D. Shepherd as "germ slayer."

## GOVERNORS PROMISING SUPPORT OF DEFENSE DAY

Washington, June 4.—A hitherto unpublished sequel to the famous five cent cigar witticism of former Vice President Thomas R. Marshall, came to light here today.

Friends of Marshall kept the story secret during his lifetime because it holds an element of tragedy.

The former vice president's remark to the senate that "what the country really needs is a good five cent cigar," it appears, drew instant response from cigar manufacturers.

Marshall was flooded with gift boxes of 5 cent cigars, the manufacturers showering their products upon him in the hope of getting his endorsement and plenty of free advertising.

Marshall refused to try any of the gifts but turned all the smokes over to Tom Neil, a negro attendant in his office. Neil smoked hundreds of the nickel cigars, fell sick and died.

Ever after that his famous remark held a note of tragedy to the former vice president.

## SOCIETY SUFFRAGE LEADER TO MARRY

New York June 4.—Social circles were discussing today the forthcoming marriage of Miss Portia Willis, society suffrage leader, and Captain L. Rodney Berg. Miss Willis became prominent several years ago when she used to fly over the city scattering her suffrage literature from an airplane.

The marriage will take place next Saturday morning.

## PHYSICIANS HONORED

London, June 4.—Lord Dawson, the king's physician, Dr. Franklin of San Francisco who is now practicing in London, and a number of prominent British doctors, were awarded honorary memberships in interstate post graduate assembly of America today.

In requesting the patriotic co-operation of the governors, Secretary Davis asserted that "every citizen, local community, county and state, as well as the various military organizations have definite tasks essential to the success of the whole test."

The war department Secretary Davis said, has prepared complete plans for the mobilization of the country in case of another war, and it is believed that public knowledge of the general idea of the plans will not only make toward the success of the defense test on the great national holiday, but will enhance national security and be a guarantee for peace in the future.

No criticism of the defense day plan has been received at the war department although several of the governors have informed Secretary Davis that, in their opinion, July 4, is not a favorable date because of the festival character of the day and the fact that thousands of citizens who might otherwise participate in a defense test will spend that week-end in the country outside the sweltering cities.

## HAMILTON FAMILY IS PRACTICALLY WIPED OUT BY GUN WELDER

One Child Escapes—Mother, Sister-in-Law, Brother and Five Children Victims—Suicide Bullet Fails To Take Effect.

Hamilton, O., June 4.—Believed crazed by the intense heat and financial worries, Lloyd Russell, 42, this morning shot and killed eight persons and turned the gun upon himself, sending a bullet through one lung.

He first killed his mother, then his brother, his sister-in-law and her five small children.

The victims in the order in which they apparently were shot to death are:

Mrs. Rose Russell, 60; Mrs. Emma Russell, 35; John L. Russell, 35; Julia Russell, 10; Robert Russell, 8; George Russell, 6; Paul Russell, 3; Richard Russell, three months.

Dorothy Russell, 7, was the only member of the family to escape. She ran screaming from the house in her nightgown after the first shot was fired by her uncle.

Neighbors heard the shooting and called the police.

By the time the officers arrived Russell had fired fifty shots or more. Some of the bodies of his victims were punctured five or six times.

Russell's hurt proved to be a slight flesh wound in the left breast.

Policemen Leonard and Keller broke into the house and took the gun away from him. Detectives Dooley and Miller, were with them.

The gun user told the police that he worked at the Champion Paper mills in Hamilton and was single. He never drank, smoked or chewed tobacco and was regarded as a good citizen. According to his story, a mortgage for \$1,600 was due on his home Thursday and he didn't have the money to meet it. Therefore, according to the police, rather than have himself and his brother's family turned into the street, he decided to slay everybody living there. Two .32 calibre revolvers were used by Russell.

The bodies of the unfortunate victims were strewn about the house. The aged mother of the crazed man was shot as she slept. Others fell dead on the floor.

The repeated barking of the revolver, punctuated by the screams of the little girl in the yard, the only one to escape, attracted great throngs of people to the immediate vicinity.

Excitement ran high. Persons in the crowd which gathered near the home before the police arrived, were fearful to enter and stood by as the firing continued.

With the arrival of an auto load of police, however, the fears of the crowd passed and the officers with guns drawn, closed in on the house and entered the death-room.

After the madman had been overpowered the bodies were removed to an undertaking establishment, where an inquest will be held later.

His countenance plainly revealed a very serious mental state. They said he had not been drinking and attributed his sudden insanity and mad lust for blood, to the intense heat.

When taken into custody he still held the smoking gun in his hand and exclaimed:

"Let me shoot my picture off the wall." Later he said, "I made a damned poor job of it on myself."

Russell was not content with shooting his victims just once. The bullet riddled bodies were mute evidence of his viciousness.

Five bullets plowed through the body of one of the children.

The mother who was shot as she lay asleep in her bed, was riddled. It was she who was selected to go first.

Little Dorothy, the 7 year old niece of the madman is the only one who could tell just what really happened after the gun began to roar and she is naturally suffering from a terrific shock and when she does talk laps out an incoherent story.

Later she will be questioned by authorities, after she is more composed.

# RESERVES TO MAKE BID FOR VICTORY OVER TROY REDMEN

After dropping their last two games the Reserves will attempt to get back into the win column Sunday afternoon when they take on the fast Troy Redmen at Washington Park at 2:30 o'clock.

The Reserves should not have lost either one of the games last week and both defeats can be charged to erratic fielding as the locals made fifteen wobbles in both games which is as many as they have made in the other five previous to these two contests.

They dropped twenty four points in fielding while they boosted their batting average up to .236 which is still a trifle light. Fuller is leading while Ritter, Cyphers, McDonnell and Friend are tied for second honors. Early and Randall are both hitting light but should not be. Randall has played in only four contests and in the event he keeps playing there is no reason to believe that he will not be around the top in a couple of more weeks. Early who two seasons ago played wonderful ball for the Bayliffs, is having a tough time in getting started. Following is the batting to date for seven games.

The New York Giants seem to be on the way to a fifth straight flag and thereby set a record for other league teams to shoot at. The Giants have cleaned up on the Eastern teams, having won five from Brooklyn, five from Philadelphia and six from Boston while they lost but one contest to the Dodgers, four to the Phillies and five to the Braves. When they open their first western tour on Thursday at St. Louis they will no doubt have just as commanding a lead then as they have now. At present they are six and one-half games in front of the Pittsburgh Pirates while the Dodgers are just one and one-half games in the rear of McKee's men.

The big slugger of the game now bats third instead of fourth. For fifty years it has been the law of baseball that the hardest and surest clouter on the team bat in fourth place. It is rather an odd change but most managers figure that there will be men on bases when he comes up and he will be useful. When he is hitting third he finds two on with nobody out or one on and one out. The mighty Tris Speaker of the Indians has put himself third while George Sisler of the Browns is hitting a notch higher

# Breeding A Callus!

Yesterday I cases into the store aiming to collect my weeks dough for press agenting the blamed hut when Mack scrambles up from a keg of nails he'd been polishing with a can a Cuex, backs me in a corner, piles a cookstove on me so's I'll stay put and speaks loudly as follows:

"This nail I got here is just like you! I've gotta pound BOTH of you on the head if I expect to get any good outa either! John Nisbet and Harold Fawcett just left here a minit ago with their noses up after telling me that after this they're going elsewhere for their favorite carpet tacks! And it was that dumb line of chatter you pulled last week that caused 'em to get snooty with us! Both of 'em claimed that if you couldn't write something about Hardware, Farm Implements, Studebakers, Overlands and Repair Parts to keep away from a tipe-writer!"

And then Mack drags me up stairs to what he calls the Repair Parts Department. He'd got his wind back by this time and flippin' into high he orates for an hour on how wonderful this department is.

Me, I don't see nothin' to write home about. Just a lot of junky looking chunks of iron and tin and trick bolts and such, yet there was Mack out in the middle of the floor every pore overworking, every hair (such as he has) on end, arms waving, howling about the wonder of this mess of stuff—"Sfact you could hear him a block!! He ends up by saying: "Now you tell'em something about this so's folks will know we got this for sale."

I told Mack I'd see what could be done but personally if it was ME and I had a platter of jimcracks like that in the place, I told him, I'd want to keep it a secret! Mack swallowed his cigar butte and while trying to rescue it, being a frugal sort of guy, I goes down stairs. Darned if I waste a lotta space telling about a lot of Repair Parts even if IT IS the biggest farm implement assortment in 5 or 6 counties.

Going out I meets the Sutton Twins, Vern and Harry, all tinted up with bright cheery smiles and laughing merrily! They had been out selling Studebakers, Overlands and Knights, and they wanted me to stop awhile and play tag with 'em but I'm getting wise to this gang—all they want is to get their stuff mentioned here in the paper and how much business they're doing!

I came in here to talk about Hardware and so far I've been so bothered I haven't got to it.

Shanty Says—

P. S. Mel Beal said if I left out Case Farm Implements I'd better stop in at Doc Sayre's and stock up on a few first aid kits—that I'd need 'em. I left 'em out, didn't I?

Boone of the Boston Red Sox is in third place while Eddie Collins of the White Sox has shifted himself from fourth to third position. In the National League Cy Williams, home run hitter bats third for the Phillies. "Zack" Wheat now hits third for Brooklyn while several seasons ago he was always fourth. Roger Hornsby of the Cardinals is also hitting third. Charles Rhem, pitcher for St. Louis Cards and who had the honor of being the first twirler to blank the Giants this season, is a coming box star. In his game several weeks ago with the McGraw clan he let them down with eight safeties while he whiffed ten and walked two. To date he has won four games and lost two. He is only twenty years of age and played ball with the Fort Smith club of the Western Association winning 22 games and losing fifteen.

Bill McKeehle, manager of the Pittsburgh Pirates, thinks he has a better team this season than he did last. At present the Pirates are in second place while just three weeks ago they were floundering around at

## Get Rid Of That Backache

Xenia People Point the Way.

The constant aching of a bad back. The weariness, the tired feeling; Headaches, dizziness, nervousness, Distressing urinary disorders—Are often signs of failing kidneys. And too serious to be neglected. Get rid of these troubles! Use Doan's Pills—a stimulant diuretic to the kidneys.

Hosts of people recommend Doan's. This is an Xenia case. You can verify it. O. T. Smith, 516 W. Second St., says: "I suffered with sharp pains through my back. When I stooped my back became cramped and I could hardly straighten. Colds settled on my kidneys, leaving them weak and nights I got up many times to pass the secretions. Doan's Pills relieved me of the terrible pains in my back and my kidneys were put in normal condition." 60c at all dealers. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

the bottom of the heap with seven games won and eleven lost. The Pirates just had a tough time in getting started. They have some of the best and fastest base runners in the business. Such men as Carey, Cuyler, Traynor, Bigbee, Grantham and Moore are marvels on the sacks. The Pittsburgh outfit is hitting good, having a team average of .312. Their fielding is a bit slopping and is only .946 but they are getting good pitching from Meadows and Morrison. The former has won six games to date and lost two while Morrison has not done quite that well, winning six and losing four. Kremer has won four and lost two.

### CHINESE PROGRAM AND TEA PARTY GIVEN

A Chinese program and tea party were held in the Sunday School of the Lutheran Church, Friday, at 2:30 o'clock with twenty-seven present.

The program was arranged by Miss Edna Mella, superintendent of the Light Brigade, Number 96. The main feature was a playlet called "Let's Be Friends." The theme of the play was two American girls and two Chinese girls, not understanding the intricacies of each other's lands, until the spirit of Christianity came and guided them into the right path of understanding. The main characters of the play were Helen Owens and Mildred Reed as the American girls and Marjorie Shoemaker and Hickey Strider as the Chinese girls. The Spirit of Christianity was represented by Sarah Jane Fison.

Missionary stories, "The Good Samaritan" and "Just Like a Missionary" were read by Marjorie Shoemaker and Helen Owens. Each member was represented during the program and afterwards the social committee took charge of the tea party.

Invitations for the tea were sent out in the shape of Chinese lanterns, reading:

"You've no idea How wise you'll be After a cup of our Chinese tea! Friday, May 29, at 2:30 p. m., Lutheran Church in the S. S. Room."

### JAMESTOWN

Friday evening, May 29, marked a most delightful epoch in the history of the Alumni Association of the Jamestown High School, when the members assembled for the annual banquet. In point of attendance and in interest it excelled any previous occasion. Just a half century ago the association was founded, so this meeting celebrated the fiftieth anniversary. The dinner served was characterized with a warm fellowship, which put every one in a fine receptive mood to enjoy the program, which teemed with optimism and reminiscences. Attorney Stanley Paxson of Washington C. H., was toastmaster. Splendid addresses were given by Homer C. Hockett, an instructor in the O. S. U. at Columbus, and by Prof. Charles Patterson, superintendent of the Norwalk, O., schools. A most pleasing feature was the address of R. S. Harriott, for many years superintendent of the Jamestown High School, but now of Delaware. Many of those present received their diplomas from him, so their meeting again was most pleasant and mutual. Some of the classes could not have representatives on account of the distance. Only four members of the class of 1911 were present: Fern Barton Frame, near Cedarville; Mary Buckles Elliott, Millersburg, Ohio; Mildred Taylor Burns Canton; and Beulah Yarnell Little, Jamestown. Miss Martha Smith of Dayton and Miss Leonie Jenks of Wilmington delighted the company with piano and violin solos.

This was followed by refreshments and a social hour.

A charge of burglary and larceny against William Zimmerman, colored, in connection with the theft of two chickens from the S. K. Williamson farm, Kyle Road, several weeks ago, has been dismissed in Common Pleas Court for want of evidence.

Elmer Johnson, colored, Xenia,

serving a sentence of from two to fifteen years in the Ohio State Penitentiary as the result of a guilty plea entered to the theft, first implicated Zimmerman in the burglary and in a confession to Sheriff Morris Sharp named Zimmerman as his confederate.

## A TIME LIMIT FOR LAWS

TO cure the existing evil of the increasing number of laws annually enacted in this country, a plan has been submitted suggesting that in the future certain laws, not necessarily of permanent value, should be passed, to apply only for a specified limit of time.

It is pointed out that laws without number now on the statute books, deal with trivialities, while others are the result of sudden emotion rather than of careful thought and investigation. If these statutes were to remain in effect for only a limited period, they would meet all the purposes of their enactment. But, being passed to last forever, as long as any other constitutional or statutory act of our law-makers, they eventually become unenforced, obsolete and clog the machinery of government with innumerable provisions, hindering rather than helping the general welfare.

When no thought is thus given to the enforcement of laws, or they become obsolete and forgotten, their continued existence tends to bring all law into disrepute, to that extent undermining the foundation of government.

In connection it is also worthy of note that the propose new laws, rather than repeal old ones. The average legislator thinks it his purpose in public life to warrant which he receives from his constituents, with its consequent honors and obligations, gives him as much authority to repeal as to enact, but his mind is always directed, not toward readjustment by repeal, but toward new conditions to be created by new laws.

If laws not obviously of permanent necessity were enacted for a period only, this tendency would be far less harmful than now, and the number of laws on the statute books would be greatly decreased, while the public respect for all other laws would be correspondingly increased.

Why not, then, protect ourselves by a time limit for certain laws? The proposal is said to have precedents in Colonial times and during the period shortly following the Revolution. In that era of our history local police measures and fiscal measures were quite commonly of limited duration. If our early America statesmen were thus conscious that conditions change, that all laws are not of the same permanent value and that they should keep their hands off the future as far as possible, why may we not profit from their example?

The suggestion was never more timely than now. Never were our statute books so burdened with unnecessary and obsolete legislation as now. Surely we might trust ourselves to adopt a policy that was tried and not found wanting when the Republic was far less grounded in experience and power than it is now.

## IN RETALIATION

BECAUSE the radicals in Congress can not control the Federal Trade Commission, it is reported they will move for the abolition of the Commission when the next Congress meets. And they probably will have little trouble in bringing about that end, for however much the Commission may have been improved since President Coolidge took the reins of government, it developed an immense amount of bad will under the previous Administration, and, indeed, during the campaign of 1924. Besides, Federal commissioners are losing caste. They meddle too much and achieve too little. They are more destructive than constructive, and they are one of the symptoms of bureaucracy. The work they are supposed to do could probably be quite as well accomplished under departmental control.

The Federal Trade Commission has in the past been the most pestiferous busy-body of the lot and the report of its good work would not occupy very much space in printed form. It was a Democratic creation, made at a time when the States were being reduced to mere provinces, and individual rights had been made matters of public inquisition. So long as radical politicians could use it to stir up trouble, they were content to have it remain. Now that some sense had been put into it, they desire to kill it. There will be few who attend the funeral.

"I'm a golfer, St. Peter!" the spirit proclaimed.  
"And of much I have done I am truly ashamed," I thought, "I've flubbed and I've dubbed to my pitiful cost."  
But I blamed not the caddy when ever I lost.

"I've sliced and I've hooked and I've bled in the rough.  
Twenty years I've played golf, I've had trouble enough!  
I've cursed when in sand traps, of that there's no doubt  
But I covered my footprints before I went out.

"I'm a golfer, St. Peter! Just one of the mutts!  
My sins they are many, I've taken three putts  
Countless times when I shouldn't  
My record is black.

But always the divots I cut, I put back

"I'm an old hundred shooter! I thought I was great  
When ever I finished around ninety-eight;  
I was slow at the game, I confess it to you  
But I never refused to let others go through."

"Come in," said St. Peter, "come in and sit down!  
Come in and I'll give you a harp and a crown!  
I've a welcome for you, with the saints, you may dwell.  
For it takes moral courage to play bad golf well."

Try This Today For BAD BREATH

Now that every thinking person in town has on hand a bottle of Kojene, the safe and delightful antiseptic, we want them to know that it will banish bad breath—no matter what the cause.

Put a teaspoonful in a glass of water—rinse the mouth and gargle the throat with half of it—then drink the balance.

Do this night and morning. Many times bad breath comes from the stomach and Kojene, the powerful yet harmless antiseptic will purify it and quickly make it sweet and clean.

Kojene is having a sensational sale the country over because it is a real antiseptic.

As an antiseptic it is four times as powerful as carbolic acid and much more powerful than Bichloride of Mercury.

Ordinary washes that were good thirty years ago, let us say that Kojene is seventy-five times more powerful than these old timers and a 60 cent bottle will make half a gallon of a supremely efficient mouth wash—60 cents at Savre and Hemphill and druggists all over America. Adv.

Ellensburg, Washington.—"When I was first coming into womanhood I suffered terribly every month. My mother did everything she could think of, so she took me to several doctors and they only helped me a little. Mother was talking to another lady about my condition and she told mother of Lydia E. Pinkham's Vegetable Compound. Mother got me six bottles and at the end of the first month I was much better, so I kept on taking it until I had no more pains. When I got married and had my first child I was in terrible pain so that it was impossible for me to do my housework. I thought of how the Vegetable Compound had been of so much benefit to me when I was a girl, so I went to Perler's Drug-Store and got six bottles. It sure did help me and I still take it. I am a well woman today and I can't say too much about Lydia E. Pinkham's Vegetable Compound. I will answer any letter that comes to me to answer about what your medicine has done for me."—Mrs. WILLIAM CARVER, R. F. D. No. 2, Ellensburg, Washington.

## NEXT MOVE IS UP TO DONAHEY IN BRYAN FARM CONTROVERSY

The John Bryan farm controversy is apparently no nearer an agreeable settlement than it ever was.

Governor Donahey recently directed Attorney General C. C. Crabbe to make an appeal from a decision of the Franklin County courts which had authorized the acceptance of the John Bryan farm in Greene County by the state with the provision that no religious worship should be permitted on the tract.

Crabbe declined to carry the case to a higher court to test the validity of the transaction giving the opinion that the Franklin County decision was correct and the state would be justified in accepting the property without violating the constitution.

Donahey rested the matter for a while and then again directed the Attorney General to appeal the case citing a section of the state law which empowers the governor to determine the policy of the state in such questions.

Crabbe again refused charging the governor with "playing politics" and declaring that his department had no time to waste in fighting a decision with which it was in complete sympathy.

The next move is up to the governor.

## LEVECK FINISHES HIGH IN OHIO SHOOT

## WARRELL BELIEVED TO BE BOND JUMPER

Jack Worrell, Beavercreek Township, failed to appear for his trial in Probate Court Wednesday afternoon on a second charge of possessing liquor and forfeited his \$500 appearance bond. Authorities believe he has left the city.

Attorney Frank L. Johnson, counsel for Worrell, who signed his bond, immediately filed suit in Common Pleas Court against Worrell and Myrtle Worrell, his wife, for \$500, seeking to attach the Worrell property in payment.

Worrell was arrested Saturday by Deputy Sheriffs John Baughn and George Spencer and County Detective F. E. Gary who conducted a raid on his home and found six gallons of liquor and a number of bottles and containers. He pleaded not guilty when arraigned.

## Stomach Remedy A Fast Seller DARE'S MENTHA PEPSIN

Six Thousand Bottles Sold in One New Jersey Town Last Year. Sohn's Drug Store De-cals Money Back if One Bottle Doesn't Make Any Stomach Sufferer Rejoice

At last the way has been found to combine Pepsin with other corrective stomach agents so that it will do the most good in the shortest possible time.

Why bother with slow actors when one tablespoonful of this splendid and pleasant liquid remedy will cause gas, bloating, heaviness, heartburn or any upset condition of the stomach to speedily vanish.

And why should any man or woman suffer another hour with indigestion or any stomach misery when the remedy that acts almost instantly can be easily procured?

But there is more to say about this remarkable remedy—something that will interest thousands of despondent people.

Dare's Mentha Pepsin not only quickly relieves stomach distress but it also cures stubborn indigestion, dyspepsia and gastritis, and puts an end to dizziness, nervousness, headache, sleeplessness and despondency which distressing troubles are nearly always caused by chronic stomach disturbance.

Dare's Mentha Pepsin is pleasant to take, has a delightfully refreshing taste and after it has put your stomach in a clean and healthy condition, just notice how much better you look and feel, for besides correcting stomach disorders this supremely good remedy that Sohn's Drug Store and druggists everywhere guarantee is a fine tonic that builds you up and makes you work with vim, eat with relish and sleep soundly.

## BLOODY HERRIN IS HARKING TO MUSIC OF OWN ORCHESTRA

Herrin, Ill., June 1—Music, that well-known soul soother, coupled with the diligent civic spirit of a new city administration, may lead turbulent Herrin from the depths of blood and faction hatred to the heights of gentle progressiveness.

Herrin, where the crash of the revolver was a tonic to expectant nerves for many months, and where mysterious raiders, hooded and white-robed, made things uncomfortable after dark, has blossomed forth with a fifty-four piece symphony orchestra.

The orchestra, composed of high school students, recently made its national debut, broadcasting from St. Louis radio station KSD. Their offerings were highly received, and hundreds of wires and letters of appreciation were dispatched to the musicians, probably both from "enjoyment and relief," the orchestra leader, Miss Ruth Soullman, murmured.

Herrin enjoys the distinction, among other things, of having the first grade school in Illinois to introduce free violin instruction courses among the students, and the present violin class totals some 250 ambitious youngsters.

**EXPECT PEACE**

The symphony orchestra, from its recent radio program handled its notes with the confidence of a veteran orchestra, as evidenced in the selections, which included the overture, "Morning, Noon and Night in Vienna" (Von Suppe); "Unfinished Symphony," allegro moderato (Schubert); "Waltz Ballet Suite" (Tschalkowsky); and "Einzugsmarsch de Bojaren" (Halvorsen).

In an effort to convince the world in general that bloody Williamson is at last imbued with a true civic pride, the Chamber of Commerce has prepared a booklet on the county's virtues and attractions, which will soon be off the press and disseminated over the entire nation.

The new city administration is dominated by anti-klan officers, and a reign of peace is confidently predicted.

**W. C. T. U. ANNOUNCES ANNUAL FLOWER DAY**

The Greene County Woman's Christian Temperance Union will celebrate its annual Flower Mission Day, next Tuesday, June 9.

Exercises will be held in the County Children's Home, at 10:30 o'clock (daylight saving time). Flowers for this institution will be furnished by McClellan, South Side and Spring Valley Unions.

Services will be conducted at the County Infirmary in the afternoon, beginning at 1:30 o'clock. The Rev. E. W. Stanton, pastor of the First M. E. Church, Xenia, will deliver the address. Flowers will be presented by Yellow Springs, Bowersville, Cedarville and Effie Carter Unions.

A picnic lunch will be held on the Infirmary grounds at the noon hour. The Xenia Union will distribute flowers at the city hospitals and the A. C. Turrell Unions at the County Jail during the day.

Marilyn Mitchell, daughter of Mr. and Mrs. J. B. Mitchell, of Hinsdale, Ill., underwent a tonsilectomy operation at the offices of Drs. Madden and Shields, Thursday morning. Mrs. Mitchell accompanied her daughter to Xenia.

Mrs. Mary Ryan of Cleveland, is visiting Mr. and Mrs. William Printz of Clifton.

The Rev. Kenneth MacKenzie, who has been spending several days in the city, left Xenia Thursday afternoon, for New York City, and will sail Saturday for Scotland. He was accompanied by his four year old son, Kenneth, Jr. Mrs. MacKenzie and their other two children will remain in Hoopston, Ill., until August when they will join Rev. Mr. MacKenzie.

The Rev. Mr. MacKenzie's father still resides in Scotland and they will visit the homestead. The Rev. Mr. MacKenzie is missionary pastor of the Second U. P. Church.

## XENIA GOLFERS ON SHORT END OF TILT WITH DAYTON CLUB

Foreign courses seem to prove a jinx to local golfers, and the four representatives of the Xenia Country Club, handicapped by a strange course, were defeated by the Community Country Club golfers, of Dayton, Wednesday afternoon over the Hills and Dales links by a score of four up at the end of play. The locals failed to register a point.

The Community Club match was the third for Xenia in the Dayton District Golf Association League.

Tim Herman of Dayton won his match with J. E. Barlow, Xenia, two up and one hole to play in the closest match of the day. J. A. Chew, Xenia, lost to R. J. Killman five and three in another close match. Paul Kronaugh added another point to the Dayton total by beating C. W. Murphy four and three. C. E. Fisher was defeated by Parker Smith six and five in the final tussle.

The Xenia Club has been unfortunate in the early season league schedule. All matches played to date have been with the more experienced representatives of Dayton clubs.

However, Xenia holds a victory over the Miami Valley Club of Dayton.

Next Wednesday afternoon Xenia will play hosts to the Beaver Valley Club, of Springfield in a league match.

Jack Barlow turned in a remarkable score Wednesday before losing his match. He shot a medal 80 on the strange course while his opponent countered with a fine 78. Barlow also featured this match with a wonderful full 390 yard drive on the long 524 yard fourteenth hole which he made in three, and turned in an eagle three on another par five hole. The Hills and Dales course is probably the hardest in Dayton and one of the longest in Ohio and a score of 80 is considered remarkable for the amateur golfer.

### PRETTY APPOINTMENTS FEATURE AFTERNOON PARTY

Miss Rinck was presented a handsome guest prize. Three tables were in play. The Sayre home was fragrant with summer flowers and the affair was marked with many charming appointments.

Mr. and Mrs. Merle Rife and family of Indiana, are visiting Mr. and Mrs. J. B. Rife of Clifton.

Probate Judge and Mrs. S. C. Wright are spending the remainder of the week in Cedarville, attending the closing exercises at the college.

Miss Ethel Hille, of Clifton, is visiting in Urbana, as the guest of Mr. and Mrs. Edward McCahey.

Mr. and Mrs. Isaac Davis of Clifton, are the parents of an eight-pound son, born Tuesday. The child has been named Daniel Edward.

The Misses Doris Whittington, Edith Lewis and Jane Bell, spent Wednesday in Dayton.

Mrs. Arthur Perfect who has been spending the past week with Mrs. Nelle E. Schuster, West Market Street, left Thursday for her home in Fort Wayne, Ind.

Mrs. Isabelle Adams of near Paintersville, is critically ill, suffering from hemorrhages of the stomach. Her condition is thought serious on account of her age.

Mrs. Rose Cramer and son Homer of Fort Wayne, Ind., and Mr. and Mrs. Frank Kuhlender and children, Roy and Marjorie of Dayton were the week end guests of Mrs. Cordella Harness and son Ralph of the Jasper Pike.

Mrs. Edgar Reeves, North West Street, returned home from Cincinnati, where she spent several days. During her stay, she broadcast, from radio station WLW.

## FOUND GUILTY

Olle Williams, colored, Cedarville, was convicted of a charge of operating an automobile while intoxicated by Judge S. C. Wright at his trial in Probate Court Wednesday morning. Sentence was deferred by Judge Wright and Williams was placed under \$200 bond.

Williams was arrested Saturday by Constable Cal Ewry, of Cedarville after he is alleged to have met with an accident. He pleaded not guilty when arraigned.

### MODISH MITZI—The Goofer Packs For A Weekend

By JAY V. JAY

The Goofer is packing for a weekend. The fact that he is taking ten pairs of socks is merely because he can't decide between them. And at the last minute he might feel more favorably disposed toward the diamond pattern than the dot and dash design or the clocked variety. A

man, you know, well, a man is privileged to change his mind—in the matter of clothes. If the Goofer didn't want to wear a conservative necktie like the striped one over the top of his suitcase, why, he'd naturally want the futurist kind that is next to it.

"What's this," says Dad thereby making life's great struggle more strugglesome. It's the striped jersey bathing suit that is the pride of the Goofer's heart. And he has left it out. There's not a corner not a fraction of an inch in the suit case for it. It's not the swim he regrets. He can get a swim most any day—but a bath-

ing suit as handsome as this is not an every day matter. The week end will begin sadly unless Dad offers to take the suit in his luggage. Kind heard Dad. He's saying: "My boy, I know how you feel! Dad can remember some handsome bathing suits in his past."

## SURGEONS BESTOW MASTERFUL JAW ON MAN WITHOUT CHIN

New York, June 3.—There is hope for the man with a receding chin. No longer need he travel life's byways depressed by the thought that Nature has stamped him as a being of weak character.

Through the science of orthodontics, he may take his place in the world as a man among men—a person with a virile and aggressive chin. New York physicians and surgeons are discussing an article which explains this surgical revelation and which appeared in the last issue of The Lancet, the authoritative English medical journal.

"By means of a special plate," says The Lancet, "it is possible to throw the lower jaw forward, so that the molar teeth meet in their proper position."

This plate has the effect of making the receding bite forward, with the result, in most cases, the article asserts, that the receding chin eventually becomes normal.

A receding chin, The Lancet points out, is of great moment to whoever has one.

"The individual of strong character," continues The Lancet, "or who is favored by fortune, may be able to survive the handicap of a receding chin, but to many a lesser person it must often prove a real hindrance in the stress of competition."

The Lancet finds that a person with a receding chin, "being regarded as weak, is treated as such and may end up by becoming what his fellows assume him to be."

### ANCIENT ERA

Responsibility for the belief that a protruding chin represents character is carried back by The Lancet to the beginning of animal life.

"The prognathism (projecting jaw) of primitive man and his ape-like forebears carried with it an appearance of ferocity. In time, as man became more civilized, this impression of animal power, associated with massive jaws, became transmuted into an impression that a strong jaw represented strength of will and decision."

## Hearing Restored Often in 24 Hours

Amazing Results Secured in One Day  
By Use of Virex Formerly Known  
As Rattle Snake Oil.

Deafness and Head Noises need not be dreaded any longer since the discovery of a widely known physician. Now it is possible for some of the most obstinate cases of deafness to be relieved in a day's time by the application of a prescription formerly known as Rattle Snake Oil. This treatment is meeting with wide success all over the country.

Mr. D. M. Lopes, a Pennsylvania man, says: "I used the treatment at night before retiring. The following morning I could hear the tickings of the alarm clock that I was unable to hear before. Now my hearing is restored perfectly after many years of deafness."

Mr. Ben Jackson, who lives in Indiana says, "Before I used Virex I could hear nothing. After ten days I could hear my watch tick."

Angeline Johnson, a Mississippi resident had been stone deaf for eighteen years. She says, "Virex has stopped my head noises and I can hear the train whistle 3 1/2 miles away."

Roy Fisher, Iowa man, says, "I hadn't heard a watch tick for eleven years—now I can lay my watch on the table and hear it plainly."

Mr. W. A. Lumpkin, of Oklahoma, says, "After being deaf 38 years, I used your treatment only a few days and hear fairly well."

Mr. Anthony Chapman, of Michigan, says, "The terrible head noises have stopped entirely and my hearing is practically back to normal."

Deaf Baby Now Hears  
Mrs. Ola Valentine, of Arkansas, says, "My little boy, now 5 years old, had been deaf since about 4 months of age. Now he hears very well and is learning to talk."

Mr. Mather Pelleys says, "My young son, deaf for years, has used Virex for only three days and he hears almost as well as ever before."

Such amazing reports come from all over this country and Canada. The prescription which is known as Virex, is easily used at home and seems to work like magic in its rapidity on people of all ages.

So confident are we that Virex will restore your hearing quickly, and to introduce this remarkable treatment to a million more sufferers, we will send a large \$2.00 treatment for only \$1.00 on delivery on ten days' free trial. If the results are not satisfactory the treatment costs nothing.

Send no money—just your name and address to the Dale Laboratories, 2072 Gateway Station, Kansas City, Mo., and the treatment will be mailed at once. Use it according to the simple directions. If at the end of 10 days your hearing is not relieved, your head noises gone entirely, just send it back and your money refunded without question. This offer is fully guaranteed, so write today and give this wonderful compound a trial.—Adv.

# FISHERMEN WILL BE GIVEN TIME TO GET ANGLERS' LICENSES

Greene County and Ohio rod and reel fishermen will not be subject to prosecution under the new angler's law until they have been given ample opportunity to purchase the new licenses, the State Department of Fish and Game has stated officially.

Attorney General C. C. Crabbe had previously ruled that the law became effective April 16.

Local anglers under the age of eighteen may fish without prosecution, under the provisions of the law known as Amended Senate Bill No. 4. Fishermen above this age limit must procure licenses.

Supplies of licenses will be sent to the different counties early next week, it is said.

It is not known whether the enactment of the anglers' law was in any way influenced by a recent declaration of President Cal Coolidge that fishing was a sport for youth alone and not for elders. The new law hits at the older fishermen and exempts the youthful sportsmen, however.

## MICHAEL'S MARRIAGE

By MICHAEL

### CHAPTER IX.

Lilah lay silent, as if asleep, until Michael sat on the edge of the berth, in pajamas and dressing gown, finishing a nightcap cigarette. Then she turned over her eyes blinking at the light.

"I may as well tell you, Michael, that I am a jealous woman." He gave a little expression of impatience.

"I won't ever mind your jealousy if there is any real cause. But your conduct tonight has been absurd. I wouldn't have been out on the platform if I had known she was coming back. You acted as if I had made an engagement with her."

Lilah smiled slightly. "Forgive me, Michael. But you're so handsome and desirable I don't see how any woman can resist you."

"Stuff. That's what every married woman thinks on her honeymoon."

"I'll always think so, Michael." She offered her lips to be kissed. "Only I wish you wouldn't smoke in our bedroom."

"Very well, dear. I won't."

He arose and rinsed his mouth.

"Turn out the light, dear. I want to see the stars." She let up the shades and gazed out into the inky darkness. No stars were visible.

"It must be terribly lonely out here," she said.

"That is what I was thinking today. Yet I suppose the people who live out here would be uncomfortable if they had to live in the close confinement of the cities."

"Just think, you wouldn't see a girl more than once a month, or year."

He smiled, thoughtfully. When he spoke there was no mistaking his seriousness.

"I may as well tell you dearest that I'm not going to refuse to look at a pretty woman just because I'm married. And I won't expect you to close your eyes if we should happen to see Ronald Colman, or Thomas Meighan, or Glenn Hunter wandering around in Hollywood."

She smiled in silence. The pale light beating through the windows enabled him to see her eyes. To him they were dark pools of mystery. He had a feeling that he didn't know her at

all; that they were strangers thrown together by accident.

"I don't think it's too much to ask absolute fidelity of the person you are married to—fidelity in thought as well as in action. If you ever are untrue to me, I'd rather it be done openly than behind my back or in your mind."

"Dearest! Whatever is putting such thoughts into your head?"

"I know I shouldn't be thinking about such things, but I am. I'm afraid the time will come when I will not mean to you all that you say I do now."

He felt forced to laugh.

"Until a woman marries a man, she's afraid she won't get him; after that she's afraid she'll lose him."

"A crude epigram, but I suppose it is true."

He yawned involuntarily. "I'm going to sleep." He bent over and kissed her. She would not allow him to release his lips for some minutes, but clung to him, as if it were a matter of life and death.

They reached Los Angeles at 2:20 in the afternoon the next day and immediately went to their hotel, a massive city in itself. Awaiting them were a stack of telegrams and a letter. The telegrams contained congratulations and foolish messages from folks at home; the letter was more of a surprise. It was from Lilah's Aunt Mary, a person regarding whom Michael had heard but little.

"Dear Children," she began, familiarly. "I am enjoyed at the news of your wedding. I regret that I couldn't be there, for I know it must have been perfectly lovely. I'm spending the winter here. I have a little house in Beverly Hills and you two simply must come out here. It would never do for you to be cooped up in a hotel. Telephone me just as soon as you get to town—Beverly Hills 0967."

"I'm afraid we're done for, Michael," groaned Lilah, handing him the note. "She'll never let us escape her. It looks like you'll never escape my kin folks, my dear! But don't frown so, please."

(To be continued.)

## Shorty Says

There's a lot to be said about Press Agenting and you've got to SAY a lot to BE one!

If I could get Kohl to TELL me WHY he's in the Tire and Battery Business it would make my job a heluva lot simpler, but Kohl just smiles or grunts when I ask him why he sweats so much and after awhile I find I've been nudged out on the side walk and after awhile stray dogs get to mistakin' me for a post office so the only thing left for me to do is go away and find a place where I can eat comfortale.

I'm commencing to suspicion that Kohl is in the game to MAKE MONEY! 'Sfact! I snuk over to the hardware store and whispered to Mel about my suspicions and he said:—"Naw, nawwhat's eatin' you? The very idea! Johnny wouldn't do a thing like THAT! He's just a natural lover of good tires and its his ambition to see every one in Greene County riding on HIS tires and using HIS breed of batteries."

So I trickled in the drug store and saw Doc Sayre and after pointing out my suspicions, he thought awhile and called up the ice house, inquiring if every one in Xenia were in swimming and finding out that they were, he leaned back contentedly in his chair and said:

"Shorty, I ust to wonder the same thing. Now days, however, I've come to the conclusion that Kohl is a philanthropist and if you want to call him that in your Press Agenting this week, I'll show you the best way to spell it.

So there you are: P. S. Johnny wants to use the rest of this space to brag about some of his tires. S'all right with me.

## HIGGINS REFUSES TO ANSWER QUESTIONS IN CONSPIRACY CASE

Defense Witness Silent On Queries Regarding Money Paid

Cleveland, June 4.—Peter J. Higgins, wealthy former liquor dealer of Youngstown who has already pleaded guilty to conspiracy charges in connection with the release and distribution of thousands of gallons of whiskey from the Hayner distillery at Troy, Ohio, in 1921, and 1922, left the stand in federal court today after refusing to answer five questions propounded by Walter D. Meals of defense counsel.

Through these questions the defense sought to link up the name of Samuel Ungerleider, Cleveland broker, with the conspiracy for their alleged part in which J. E. Russell, suspended federal prohibition director of Ohio; Merle B. Copeland, his suspended chief clerk, and Warren E. Barnett, Columbus, attorney, are on trial in federal district court here.

Higgins in each instance refused to answer questions upon the grounds that they might tend to incriminate him in other possible prosecutions.

"How many times between November 1921 and November 1922, did you visit Sam Ungerleider's office?" was Meals first question.

When Higgins refused to answer, Meals read into the record an offer to prove that Higgins had been a frequent visitor at the brokerage firms headquarters.

"From November 1, 1921 to November 1, 1922, did you pay Sam Ungerleider any money?" was the next question, followed by the following:

"How much money did you pay Sam Ungerleider?"

"Isn't it a fact that you paid Sam Ungerleider \$52,000?"

"Did you not pay \$52,000 to Sam Ungerleider for Hayner whiskey?" Higgins then left the stand.

## KILL COMMUNISTS IN SOFIA ROUND-UP

Sofia, Bulgaria, June 4.—Two communists were killed and one surrendered to avoid being shot to death in a nationwide roundup of communists which the Bulgarian government completed today.

The three men were beheaded in a house and refused to surrender when ordered. The police then opened fire. A total of 450 communists were arrested, some of whom confessed to day, they were implicated in the rebellion conspiracy at Varna.

Of those arrested, 140 were charged with being concerned in communist plots at Bourgas.

Columbus, O., June 4.—A drop in the number of persons placed in employment through the ten state-city employment offices during May, was reported today by Herman R. Witter, state industrial relations director.

Placements in May were 22,928, as compared to 26,129 in April.

Applications for jobs also decreased, there being 54,085 in May compared to 56,129 in April.

Placements in the various cities during the month were:

Cleveland 8,202; Columbus 2,920; Akron 3,374; Dayton 2,216; Cincinnati 1,140; Youngstown 1,329; Warren 1,103; Middletown, 291.

## REFORMER HELD FOR "POISON" LETTERS

Cleveland, O., June 4.—A warrant for the arrest of Albert Gregg, president of American Civic Reform union, and well known as an author and publisher, was issued by federal authorities here this afternoon.

Gregg is charged with having written "poison pen" letters to Rev. Wm. Hicks, Protestant Episcopal clergyman.

## DISMISS CHARGE AGAINST HARTLEY

A charge of burglary and larceny against Charles Hartley, Springfield, was dismissed by Magistrate R. O. Copsey Wednesday afternoon because of insufficiency of evidence.

Hartley was arrested on information furnished by County Detective F. E. Gary and was accused of entering the Hercules Powder Company plant warehouse at Goes and stealing a quantity of scrap brass, copper and aluminum valued at \$110, owned by the Keystone Iron and Metal Company.

Hartley entered a plea of not guilty when arraigned on the charge.

## LIQUOR PROOF WALL OBJECTIVE OF RUM WAR SAYS ANDREWS

Hope To Cut Off Supply Of Owners Of "Best Cellars" Says Prohibition Marshal

Washington, June 4.—A liquor proof wall, extending entirely around the United States to smuggling of wet goods permanently is the objective of the government's rum war, the treasury disclosed today.

To cut off the liquor supply of those, who, with well stocked cellars, have laughed at the Volstead act, is among the prime purposes of the "whiskey crusade," General L. C. Andrews, field marshal of the prohibition forces, declared.

"I believe we can make the borders and the coast lines as difficult for the liquor smuggler to reach, as though they were an armed enemy," Andrews told the International News Service.

Details of a general plan to bring about observation of the dry law are being worked out by Andrews, who was selected by President Coolidge to head enforcement and to co-ordinate the activities of various agencies.

## DRYS ELATED OVER DEFEAT OF BILL TO MODIFY DRY LAW

Bill Would Have Repealed Illinois Prohibition Law And Seizure Act

Springfield, Ill., June 4.—Dry members of the house are jubilant today over the defeat of the bill which makes impossible any modification or repeal of the Volstead act in Illinois for the next two years.

The anti-Saloon league finally and utterly smashed the bill to repeal the Illinois prohibition law and the so-called search and seizure act, and then rubbed it in by advancing to third reading of the bill to create offices in the state prohibition enforcement department staff under the direction of the attorney general. This bill already has passed the senate.

The drys need seventy-seven votes for its passage in the house before going to the governor. Scenes of wild disorder attended practically all stages of debate on the prohibition measure with caustic personalities indulged in frequently.

## FRENCH ASTRONOMER AND AUTHOR DIES

Paris, June 4.—Camille Flammarion, the famous French astronomer and author died today at Juvisy where he was head of the observatory, according to the newspaper La Liberté. He was eighty three years old.

Camille Flammarion, one of the greatest astronomers of the century was best known for his repeated assertions that Mars is inhabited.

In addition to many standard books on astronomy he wrote "death and its mystery" and mysterious psychic forces.

He founded the astronomical society of France in 1887.

## DEATH TOLL REACHES SEVEN IN NEW YORK; STORMS CLAIM MANY

Present Warm Wave Covers Country—Expect High Mark

New York, June 4.—The death toll in the heat wave in New York and vicinity today stood at seven, and there was no relief in sight.

"Continued warm" was the forecast.

The hot weather, according to advices, encompassed the eastern states again this morning and there were reports of numerous prostrations.

Thousands of persons thronged the parks and beaches in and near New York City today to get some relief from the oppressive heat.

It was 81 above here at midnight. Then the mercury dropped slowly and steadily until six a. m. when it was 74. Again the mercury rose until at nine o'clock this morning it was 78.

At the weather bureau it was expected a high mark would be reached today before showers and cooler weather comes tonight or tomorrow.

Chicago, June 4.—No relief is in sight at present in the heat wave. Weather officials stated here this morning.

In several sections of the middle west the heat wave brought violent damaging rains and windstorms of tornado proportions. Many persons were killed in the storm. In the region around Minneapolis six deaths were reported. In Iowa eight have been killed since Monday by the storms that accompanied high temperatures. In Nebraska four persons met death in small tornadoes.

With the heat wave Chicago felt an increase in the mosquito scourge. Officials are directing a fight against the pests.

A gradually increasing breeze from the west, carrying light fleecy clouds gave promise today of the end of the heat wave which has held Greene County for the past five days.

However, the official government forecast for Ohio with its "fair and warmer" offered no such hope to the state at large. The barometer readings showed no increasing of pressure which would portend rain.

The thermometer at Soh's drug store here read 93 at noon. The cooling breeze made conditions much more bearable than during the preceding days.

Farmers throughout the county reported no appreciable water shortage. It was believed that crops suffered little or no damage from the heat.

The full force of the heat appeared to be moving eastward and Thursday centered along the Atlantic seaboard where many prostrations were reported.

Cleveland, Columbus, Cincinnati and other large cities in Ohio reported casualties which were attributed to the heat.

## COMMITTEE PROBES PRISON OPERATION

Columbus, O., June 4.—Study of state prisons with a view toward greater economy in operation and especially greater economy in completion of construction of the new London prison farm will be opened today by the special legislative committee created by the last legislature.

Revision of the whole state prison system is contemplated by the committee.

The committee includes Senators Maud C. Waitt, Cuyahoga; Allen G. Aigler, Huron and W. A. Clark, Champagne and Representative Van Wye, Hamilton, Green, Portage; and William C. Wendt, Franklin.

State Welfare Director Baker, Warden Thomas of Ohio State penitentiary, Columbus; W. F. Amrine, superintendent of the London prison farm and Mrs. Louise Mittendorf, superintendent of Marysville prison, for women, are expected to attend the meeting.

London, June 4.—Armored cars were sent today to the western districts of Shanghai where Chinese had concentrated and were in control of the suburb, according to dispatches reaching here. The strike began with a walkout of Chinese employed in the Japanese cotton mills in and about Shanghai and then spread to other industries.

Two British warships have arrived and all legations are under a strong guard. The "anti-foreign disorders" now involve Shanghai, Peking and Canton and the movement is spreading.

Patrols have rescued many foreigners from attacks and there have been continual clashes in the city districts, with rioters being killed and wounded.

Shanghai, June 4.—Starvation appeared today as a new weapon of the Chinese strikers in their campaign against all foreigners.

Strenuous efforts were made to extend the general strike to all essential services, particularly utilities with a view to cutting off food supplies and starving out the foreign population.

## GOVERNORS PROMISING SUPPORT OF DEFENSE DAY

HAD TRAGIC SEQUEL  
Washington, June 4.—A hitherto unpublished sequel to the famous five cent cigar witticism of former Vice President Thomas R. Marshall, came to light here today.

Friends of Marshall kept the story secret during his lifetime because it holds an element of tragedy.

The former vice president's remark to the senate that "what the country really needs is a good five cent cigar," it appears, drew an instant response from cigar manufacturers. Marshall was flooded with gift boxes of 5 cent cigars, the manufacturers showering their products upon him in the hope of getting his endorsement and plenty of free advertising.

The gifts refused to try any of the cigars but turned all the smokes over to Tom Neil, a negro attendant in his office. Neil smoked hundreds of the nickel cigars, fell sick and died.

Ever after that his famous remark held a note of tragedy to the former vice president.

Acting War Secretary Urges Co-operation For Independence Day Program  
Washington, June 4.—With the date for the national defense test on July 4 just one month away, Acting Secretary of War Dwight F. Davis today made public the letter he sent to the governors of the states requesting their co-operation in the defense day plans. The governors of Oklahoma, Connecticut, Maine, Vermont and New Mexico have already replied to Secretary Davis letter pledging their co-operation.

War department officials are expecting every day to bring forth additional pledges of support and co-operation from the governors of the other states insuring the unqualified success of the defense plans.

"The general purposes of the second defense test," Secretary Davis informed the governors, "is to acquaint the American people with their national defense policies and obligations as set forth in the constitution and the national defense act of 1920. It is also to depict the plans and processes for the organization of the army of the United States and its muster into service in the event of any national emergency."

"It is also necessary to emphasize the historical occasion when congress first pledged the manpower and resources of the country for national defense and to commemorate the sacrifices made for that defense."

In requesting the patriotic co-operation of the governors, Secretary Davis asserted that "every citizen, local community, county and state, as well as the various military organizations have definite tasks essential to the success of the whole test."

The war department Secretary Davis said, has prepared complete plans for the mobilization of the country in case of another war, and it is believed that public knowledge of the general idea of the plans will not only make toward the success of the defense test on the great national holiday, but will enhance national security and be a guarantee for peace in the future.

No criticism of the defense day plan has been received at the war department although several of the governors have informed Secretary Davis that, in their opinion, July 4, is not a favorable date because of the festival character of the day and the fact that thousands of citizens who might otherwise participate in a defense test will spend that week-end in the country outside the sweltering cities.

## HAMILTON FAMILY IS PRACTICALLY WIPED OUT BY GUN WIELDER

One Child Escapes—Mother, Sister-in-Law, Brother and Five Children Victims—Suicide Bullet Fails To Take Effect.

Hamilton, O., June 4.—Believed crazed by the intense heat and financial worries, Lloyd Russell, 42, this morning shot and killed eight persons and turned the gun upon himself, sending a bullet through one lung.

He first killed his mother, then his brother, his sister-in-law and her five small children.

The victims in the order in which they apparently were shot to death are:

Mrs. Rose Russell, 60; Mrs. Emma Russell, 35; John L. Russell, 35; Julia Russell, 10; Robert Russell, 8; George Russell, 6; Paul Russell, 3; Dorothy Russell, three months.

Russell's hurt proved to be a slight flesh wound in the left breast. She ran screaming from the house in her nightgown after the first shot was fired by her uncle.

Neighbors heard the shooting and called the police.

By the time the officers arrived Russell had fired fifty shots or more. Some of the bodies of his victims were punctured five or six times.

# RESERVES TO MAKE BID FOR VICTORY OVER TROY REDMEN

After dropping their last two games the Reserves will attempt to get back into the win column Sunday afternoon when they take on the fast Troy Redmen at Washington Park at 2:30 o'clock.

The Reserves should not have lost either one of the games last week and both defeats can be charged to erratic fielding as the locals made fifteen errors in both games which is as many as they have made in the other five previous to these two contests.

They dropped twenty four points in fielding while they boosted their batting average up to .236 which is still a trifle light. Fuller is leading while Ritter, Cyphers, McDonnell and Friend are tied for second honors. Early and Randall are both hitting light but should not be. Randall has played in only four contests and in the event he keeps playing there is no reason to believe that he will not be around the top in a couple of more weeks. Early who two seasons ago played wonderful ball for the Bayliffs, is having a tough time in the batting line. Following is the batting line to date for seven games.

The New York Giants seem to be on the way to a fifth straight flag and thereby set a record for other league teams to shoot at. The Giants have cleaned up on the Eastern teams, having won five from Brooklyn, five from Philadelphia and six from Boston while they lost but one contest to the Dodgers, four to the Phillies and five to the Braves. When they open their first western tour on Thursday at St. Louis they will no doubt have just as commanding a lead then as they have now. At present they are six and one-half games in front of the Pittsburgh Pirates while the Dodgers are just one and one-half games in the rear of McKee's men.

The big slugger of the game now bats third instead of fourth. For fifty years it has been the law of baseball that the hardest and surest clouter on the team bat in fourth place. It is rather an odd change but most managers figure that there will be men on bases when he comes up and he will be useful. When he is hitting third he finds two on with nobody out or one on and one out. The mighty Tris Speaker of the Indians has put himself third while George Sisler of the Browns is hitting a notch higher

Boone of the Boston Red Sox is in third place while Eddie Collins of the White Sox has shifted himself from fourth to third position. In the National League Cy Williams, home run hitter bats third for the Phillies. "Zack" Wheat now hits third for Brooklyn while several seasons ago he was always fourth. Roger Hornsby of the Cardinals is also hitting third. Charles Rhen, pitcher for St. Louis Cards and who had the honor of being the first twirler to blank the Giants this season, is a coming box star. In his game several weeks ago with the McGraw clan he let them down with eight safeties while he whiffed ten and walked two. To date he has won four games and lost two. He is only twenty years of age and played ball with the Fort Smith club of the Western Association winning 22 games and losing fifteen.

Bill McKee, manager of the Pittsburgh Pirates, thinks he has a better team this season than he did last. At present the Pirates are in second place while just three weeks ago they were floundering around at

# Breeding A Callus!

Yesterday I eased into the store aiming to collect my weeks dough for press agenting the blamed hut when Mack scrambles up from a keg of nails he'd been polishing with a can a Cuex, backs me in a corner, piles a cookstove on me so's I'll stay put and speaks loudly as follows:

"This nail I got here is just like you! I've gotta pound BOTH of you on the head if I expect to get any good outa either! John Nisbet and Harold Fawcett just left here a minit ago with their noses up after telling me that after this they're going elsewhere for their favorite carpet tacks! And it was that dumb line of chatter you pulled last week that caused 'em to get snooty with us! Both of 'em claimed that if you couldn't write something about Hardware, Farm Implements, Studebakers, Overlands and Repair Parts to keep away from a tipe-writer!"

And then Mack drags me up stairs to what he calls the Repair Parts Department. He'd got his wind back by this time and flippin' into high he orates for an hour on how wonderful this department is.

Me, I don't see nothin' to write home about. Just a lot of junky looking chunks of iron and tin and trick bolts and such, yet there was Mack out in the middle of the floor every pore overworking, every hair (such as he has) on end, arms waving, howling about the wonder of this mess of stuff—'Sfact you could hear him a block!! He ends up by saying: "Now you tell'em something about this so's folks will know we got this for sale."

I told Mack I'd see what could be done but personally if it was ME and I had a platter of jimcracks like that in the place, I told him, I'd want to keep it a secret! Mack swallowed his cigar butte and while trying to rescue it, being a frugal sort of guy, I goes down stairs. Darned if I waste a lotta space telling about a lot of Repair Parts even if IT IS the biggest farm implement assortment in 5 or 6 counties.

Going out I meets the Sutton Twins, Vern and Harry, all tinted up with bright cheery smiles and laffing merrily! They had been out selling Studebakers, Overlands and Knights, and they wanted me to stop awhile and play tag with 'em but I'm getting wise to this gang—all they want is to get their stuff mentioned here in the paper and how much business they're doing!

I came in here to talk about Hardware and so far I've been so bothered I haven't got to it.

Shorty Says—

P. S. Mel Beal said if I left out Case Farm Implements I'd better stop in at Doc Sayre's and stock up on a few first aid kits—that I'd need 'em. I left 'em out, didn't I?

Such men as Carey, Cuyler, Traynor, Elstner, Grantham and Moore are marvels on the sacks. The Pittsburgh outfit is hitting good, having a team average of .312. Their fielding is a bit slopping and is only .946 but they are getting good pitching from Meadows and Morrison. The former has won six games to date and lost two while Morrison has not done quite that well, winning six and losing four. Kremer has won four and lost two.

### CHINESE PROGRAM AND TEA PARTY GIVEN

A Chinese program and tea party were held in the Sunday School of the Lutheran Church, Friday, at 2:30 o'clock with twenty-seven present. The program was arranged by Miss Edna Mella, superintendent of the Light Brigade, Number 5. The main feature was a playlet called "Let's Be Friends." The theme of the play was two American girls and two Chinese girls, not understanding the intricacies of each other's lands, until the spirit of Christianity came and guided them into the right path of understanding. The main characters of the play were Helen Owens and Mildred Reed as the American girls and Marjorie Shoemaker and Hacey Strider as the Chinese girls. The Spirit of Christianity was represented by Sarah Jane Fillion.

Missionary stories, "The Good Samaritan" and "Just Like a Missionary" were read by Marjorie Shoemaker and Helen Owens. Each member was represented during the program and afterwards the social committee took charge of the tea party.

Invitations for the tea were sent out in the shape of Chinese lanterns, reading: "You've no idea How wise you'll be After a cup of our Chinese tea! Friday, May 29, at 2:30 p. m., Lutheran Church in the S. S. Room."

### JAMESTOWN

Friday evening, May 29, marked a most delightful epoch in the history of the Alumni Association of the Jamestown High School, when the members assembled for the annual banquet. In point of attendance and in interest it excelled any previous occasion. Just a half century ago the association was founded, so this meeting celebrated the fiftieth anniversary. The dinner served was characterized with a warm fellowship, which put every one in a fine receptive mood to enjoy the program, which teemed with optimism and reminiscence.

Attorney Stanley Paxson of Washington, D. C., was toastmaster. Splendid addresses were given by Homer C. Hockett, an instructor in the O. S. U. at Columbus, and by Prof. Charles Patterson, superintendent of the Norwalk, O., schools. A most pleasing feature was the address of R. S. Harmon, for many years superintendent of the Jamestown High School, but now of Delaware. Many of those present received their diplomas from him, so their meeting again was most pleasant and mutual. Some of the classes could not have representatives on account of the distance. Only four members of the class of 1911 were present: Fern Barton Frame, near Cedarville; Mary Buckles Elliott, Millersburg, Ohio; Mildred Taylor Burns Canton; and Beulah Yarnell Little, Jamestown. Miss Martha Smith of Dayton and Miss Leontine Jenks of Wilmington delighted the company with piano and violin solos.

Mrs. J. H. Lackey was the hostess to the members of the Woman's Missionary Society of the United Presbyterian Church on Friday afternoon. Mrs. L. L. Gray led the devotion. Miss Catherine Darling had charge of the program, assisted by a group of members in discussing "Adventures of the Brotherhood," which finished the study book for the year. This was followed by refreshments and a social hour.

The Rev. and Mrs. L. L. Gray will go to New Concord to attend the week's activities of Muskingum College, which includes the baccalaureate address, the commencement exercises and the alumni banquet of which Mr. Gray is a member. From New Concord, Mrs. Gray and son, Dwight go to Akron to attend the wedding of Mrs. Gray's nephew, Mr. Harry Ritchie, which will occur on Saturday the 13th, at the First Methodist Episcopal Church. Mr. Gray will serve as one of the ushers and will then come to Jamestown for his vacation.

Mrs. R. D. Bryan will open her home on Thursday afternoon to receive the members of the W. F. M. S. of the M. E. Church. Mrs. Otto Deubner and two sons of Sidney, visited her mother, Mrs. G. W. Leveck, last week. Mr. Deubner came on Saturday and returned home with his family on Sunday evening. The Misses Ruth Smith and Helen George came from Oxford on Friday evening to attend the alumni banquet. Dr. E. O. Crist of Dayton, district supt. of the M. E. Church will hold the last quarterly conference at the local church on Thursday evening. The Dr. and Mrs. Crist will be the guests of the Rev. and Mrs. Joseph Bennett for a six o'clock dinner on that evening.

Mr. and Mrs. A. J. Christopher had for their guests on Saturday Mr. and Mrs. Schouanbran and daughter, Dorothy of Dayton. Mrs. James Roberts entertained with a dinner on Saturday for relatives, covers being laid for twenty. Mr. and Mrs. A. J. Barnes have for their guests this week, Mr. and Mrs. Herbert Long and two children of Elizabeth, New Jersey. Mrs. Long's sisters the Misses Helen and Katherine Pugh, of Columbus, will also be guests at the Barnes home.

Mrs. A. G. Paulin will be the hostess to the members of the Rural Improvement Club on Wednesday. Mrs. A. J. Barnes has issued invitations for a Thimble party on Wednesday afternoon honoring her houseguest, Mrs. Herbert Long.

The Jamestown Grange will hold an important meeting on Thursday evening the fourth. Inasmuch as there will be an unusual large number to be initiated, seventy in all, the team work in this grange has reached a standard of efficiency. The first and second degrees will be conferred at this time. On Friday evening the Jamestown members will be the guests of the Xenia Grange and will put on the program of the evening.

Mr. and Mrs. John Persinger of Columbus visited on Saturday with Jamestown relatives. Mr. and Mrs. Archie Gordon entertained over Sunday Mr. and Mrs. B. C. Fry of Columbus and Mrs. W. B. Kinnamon of Chillicothe. Mrs.

Margaret Barton and daughter, Mrs. Linn of Xenia spent Saturday at the Gordon home.

The Junior class of the high school enjoyed a delightful picnic near Fairfield one day last week. They were accompanied by Principal and Mrs. Willis French.

Mr. and Mrs. Clarence Shigley of Columbus, spent the week end with the former's parents, Mr. and Mrs. D. C. Shigley.

Lawrence Shane has accepted a position in the drug store of W. F. Harper.

Mr. and Mrs. Claude Clark and little daughter Floris Nadine of Columbus, were the guests of Mr. and Mrs. A. J. Barnes, the last of the week.

Mrs. Charles Elliott and son Billy of Millersburg have spent a week with their mother, Mrs. Jennie Buckles. Mr. and Mrs. Orvin Glass have had for their guests Mr. and Mrs. Guy Sholey of Springfield.

Mr. L. C. Adsit, who owns the Jamestown green house has bought the large florist business of his brother D. E. Adsit at Greenfield, also his residence property. However, Mr. Adsit will remain at Jamestown and will place his son-in-law, James Johnson, in charge of the Greenfield plant. Mr. Johnson with his family have been in Los Angeles, Cal. for the past few years, but is now on his way to Ohio. Mr. D. E. Adsit will retire from business, and is planning the construction of a modern bungalow in Greenfield and will continue to reside there.

Mr. and Mrs. Robert Burns, Mildred Taylor of Canton, have been the guests of Jamestown friends. They came to attend the Alumni banquet.

An application has been filed in Common Pleas Court by Christ Protestant Episcopal Church and the wardens and vestry of the parish of the church for authorization to sell church property facing White-man Street the site of the present Parish house, for \$1,300.

According to the application, the present house and property, purchased from Mr. and Mrs. Miles W. Davis, in December, 1908, is inadequate.

The wardens and vestry were authorized to sell the property at a congregational meeting for not less than \$1,300. Attorney Harry D. Smith represents the church in the transaction.

## A TIME LIMIT FOR LAWS

To cure the existing evil of the increasing number of laws annually enacted in this country, a plan has been submitted suggesting that in the future certain laws, not necessarily of permanent value, should be passed, to apply only for a specified limit of time.

It is pointed out that laws without number now on the statute books, deal with trivialities, while others are the result of sudden emotion rather than of careful thought and investigation. If these statutes were to remain in effect for only a limited period, they would meet all the purposes of their enactment. But, being passed to last forever, as long as any other constitutional or statutory act of our law-makers, they eventually become unenforced, obsolete and clog the machinery of government with innumerable provisions, hindering rather than helping the general welfare.

When no thought is thus given to the enforcement of laws, or they become obsolete and forgotten, their continued existence tends to bring all law into disrepute, to that extent undermining the foundation of government.

In connection it is also worthy of note that the propose new laws, rather than repeal old ones. The average legislator thinks it his purpose in public life to warrant which he receives from his constituents, with its consequent honors and obligations, gives him as much authority to repeal as to enact, but his mind is always directed, not toward readjustment by repeal, but toward new conditions to be created by new laws.

If laws not obviously of permanent necessity were enacted for a period only, this tendency would be far less harmful than now, and the number of laws on the statute books would be greatly decreased, while the public respect for all other laws would be correspondingly increased.

Why not, then, protect ourselves by a time limit for certain laws? The proposal is said to have precedents in Colonial times and during the period shortly following the Revolution. In that era of our history local police measures and fiscal measures were quite commonly of limited duration. If our early America statesmen were thus conscious that conditions change, that all laws are not of the same permanent value and that they should keep their hands off the future as far as possible, why may we not profit from their example?

The suggestion was never more timely than now. Never were our statute books so burdened with unnecessary and obsolete legislation as now. Surely we might trust ourselves to adopt a policy that was tried and not found wanting when the Republic was far less grounded in experience and power than it is now.

## IN RETALIATION

BECAUSE the radicals in Congress can not control the Federal Trade Commission, it is reported they will move for the abolition of the Commission when the next Congress meets. And they probably will have little trouble in bringing about that end, for however much the Commission may have been improved since President Coolidge took the reins of government, it developed an immense amount of bad will under the previous Administration, and, indeed, during the campaign of 1924. Besides, Federal commissioners are losing caste. They meddle too much and achieve too little. They are more destructive than constructive, and they are one of the symptoms of bureaucracy. The work they are supposed to do could probably be quite as well accomplished under departmental control.

The Federal Trade Commission has in the past been the most pestiferous busy-body of the lot and the report of its good work would not occupy very much space in printed form. It was a Democratic creation, made at a time when the States were being reduced to mere provinces, and individual rights had been made matters of public inquisition. So long as radical politicians could use it to stir up trouble, they were content to have it remain. Now that some sense had been put into it, they desire to kill it. There will be few who attend the funeral.

"I'm a golfer, St. Peter! just one of the nuts!  
My sins they are many, I've taken three putts  
Countless times when I shouldn't My record is black."

When ever I finished around ninety-eight;

I was slow at the game, I confess it to you  
But I never refused to let others go through."

## NEXT MOVE IS UP TO DONAHEY IN BRYAN FARM CONTROVERSY

The John Bryan farm controversy is apparently no nearer an agreeable settlement than it ever was.

Governor Donahey recently directed Attorney General C. C. Crabbe to make an appeal from a decision of the Franklin County courts which had authorized the acceptance of the John Bryan farm in Greene County by the state with the provision that no religious worship should be permitted on the tract.

Crabbe declined to carry the case to a higher court to test the validity of the transaction giving the opinion that the Franklin court decision was correct and the state would be justified in accepting the property without violating the constitution.

Donahey rested the matter for a while and then again directed the Attorney General to appeal the case citing a section of the state law which empowers the governor to determine the policy of the state in such questions.

Crabbe again refused charging the governor with "playing politics" and declaring that his department had no time to waste in fighting a decision with which it was in complete sympathy.

The next move is up to the governor.

## LEVECK FINISHES HIGH IN OHIO SHOOT

B. J. Leveck, made a good showing in the class trophy event Wednesday afternoon, one of the feature events of the opening of the thirty-ninth annual Ohio State Trapshooting Association tournament at the A. T. A. headquarters at Vandalia, Dayton. Leveck shattered 185 of the clay targets out of a possible 200 and placed seventh in a large field entered. C. O. Swigart, Xenia, broke 159 in 200 in the Class C division of the trophy shoot. This event proved popular with contestants.

## WARRELL BELIEVED TO BE BOND JUMPER

Jack Worrell, Beaver Creek Township, failed to appear for his trial in Probate Court Wednesday afternoon on a second charge of possessing liquor and forfeited his \$500 appearance bond. Authorities believe he has left the city.

Attorney Frank L. Johnson, counsel for Worrell, who signed his bond, immediately filed suit in Common Pleas Court against Worrell and Myrtle Worrell, his wife, for \$500, seeking to attach the Worrell property in payment.

Worrell was arrested Saturday by Deputy Sheriff John Baughn and George Spencer and County Detective F. E. Gary who conducted a raid on his home and found six gallons of liquor and a number of bottles and containers. He pleaded not guilty when arraigned.

AFTERNOON PARTY FOR INTIMATE FRIENDS

Marked with gracious informality, the party given by Mrs. Harry S. LeSourd, honoring Mrs. George A. Thompson of Cincinnati, was enjoyed by twelve guests, intimate friends of Mrs. Thompson, who formerly resided in this city, at the LeSourd home on West Market Street, Wednesday afternoon.

Mrs. Arthur Perfect, of Fort Wayne, Ind., was the only other out of town guest.

## BLOODY HERRIN IS HARKING TO MUSIC OF OWN ORCHESTRA

Herrin, Ill., June 1—Music, that well-known soul soother, coupled with the diligent civic spirit of a new city administration, may lead turbulent Herrin from the depths of blood and faction hatred to the heights of gentle progressiveness.

Herrin, where the crash of the revolver was a tonic to expectant nerves for many months, and where mysterious raiders, hooded and white-robed, made things uncomfortable after dark, has blossomed forth with a fifty-four piece symphony orchestra.

The orchestra, composed of high school students, recently made its national debut, broadcasting from St. Louis radio station KSD. Their offerings were highly received, and hundreds of wires and letters of appreciation were dispatched to the musicians, probably both from "enjoyment and relief," the orchestra leader, Miss Ruth Soullam, murmured.

Herrin enjoys the distinction, among other things, of having the first grade school in Illinois to introduce free violin instruction courses among the students, and the present violin class totals some 250 ambitious youngsters.

EXPERIMENT PEACE

The symphony orchestra, from its recent radio program, has endeavored its notes with the confidence of a veteran orchestra, as evidenced in the selections, which included the overture, "Morning, Noon and Night in Vienna" (Von Suppe); "Unfinished Symphony," allegro moderato (Schubert); "Waltz Ballet Suite" (Tschakowsky); and "Einzugsmarsch de Bojaren" (Hofvorsen).

In an effort to convince the world in general that bloody Williamson is at last imbued with true civic pride, the Chamber of Commerce has prepared a booklet on the county's virtues and attractions, which will soon be off the press and disseminated over the entire nation.

The new city administration is dominated by anti-klan officers, and a reign of peace is confidently predicted.

W. C. T. U. ANNOUNCES ANNUAL FLOWER DAY

The Greene County Woman's Christian Temperance Union will celebrate its annual Flower Mission Day, next Tuesday, June 9.

Exercises will be held in the County Children's Home, at 10:30 o'clock (daylight saving time). Flowers for this institution will be furnished by McClellan, South Side and Spring Valley Unions.

Services will be conducted at the County Infirmary in the afternoon, beginning at 1:30 o'clock. The Rev. E. W. Stanton, pastor of the First M. E. Church, Xenia, will deliver the address. Flowers will be presented by Yellow Springs, Bowersville, Cedarville and Effie Carter Unions.

A picnic lunch will be held on the Infirmary grounds at the noon hour. The Xenia Union will distribute flowers at the city hospitals and the A. C. Turrell Unions at the County Jail during the day.

Marilyn Mitchell, daughter of Mr. and Mrs. J. B. Mitchell, of Hinesdale, Ill., underwent a tonsilectomy operation at the offices of Drs. Madden and Shields, Thursday morning. Mrs. Mitchell accompanied her daughter to Xenia.

Mrs. Mary Ryan of Cleveland, is visiting Mr. and Mrs. William Printz of Clifton.

The Rev. Kenneth MacKenzie, who has been spending several days in the city, left Xenia Thursday afternoon, for New York City, and will sail Saturday for Scotland. He was accompanied by his four year old son, Kenneth, Jr. Mrs. MacKenzie and their other two children will remain in Hopewest, Ill., until August when they will join Rev. Mr. MacKenzie. The Rev. Mr. MacKenzie's father still resides in Scotland and they will visit the homestead. The Rev. Mr. MacKenzie is missionary pastor of the Second U. P. Church.

## XENIA GOLFERS ON SHORT END OF TILT WITH DAYTON CLUB

Foreign courses seem to prove a jinx to local golfers, and the four representatives of the Xenia Country Club, handicapped by a strange course, were defeated by the Community Country Club golfers, of Dayton, Wednesday afternoon over the Hills and Dales links by a score of four up at the end of play. The locals failed to register a point.

The Community Club match was the third for Xenia in the Dayton District Golf Association League.

Tim Herman of Dayton won his match with J. E. Barlow, Xenia, two up and one hole to play in the closest match of the day. J. A. Chew, Xenia, lost to R. J. Kilman five and three in another close match. Paul Kronauge added another point to the Dayton total by beating C. W. Murphy four and three. C. E. Fisher was defeated by Parker Smith six and five in the final tussle.

The Xenia Club has been unfortunate in the early season league schedule. All matches played to date have been with the more experienced representatives of Dayton clubs.

However, Xenia holds a victory over the Miami Valley Club of Dayton.

Next Wednesday afternoon Xenia will play hosts to the Beaver Valley Club, of Springfield in a league match.

Jack Barlow turned in a remarkable score Wednesday before losing his match. He shot a medal 80 on the strange course while his opponent countered with a fine 78. Barlow also featured this match with a wonderful 390 yard drive on the long 524 yard fourteenth hole which he made in three, and turned in an eagle three on another par five hole. The Hills and Dales course is probably the hardest in Dayton and one of the longest in Ohio and a score of 80 is considered remarkable for the amateur golfer.

PRETTY APPOINTMENTS FEATURE AFTERNOON PARTY

Mrs. Lillian Rutledge, Dayton and Miss Alice Rinck won the high score prizes at the bridge party given by Mrs. H. L. Sayre, Wednesday afternoon, at her home on North King Street, for the pleasure of Miss Florence Rinck, bride-elect of Mr. James Paulin.

Miss Rinck was presented a handsome guest prize. Three tables were in play. The Sayre home was fragrant decorated with summer flowers and the affair was marked with many charming appointments.

Mr. and Mrs. Merle Rife and family of Indiana, are visiting Mr. and Mrs. J. B. Rife of Clifton.

Probate Judge and Mrs. S. C. Wright are spending the remainder of the week in Cedarville, attending the closing exercises at the college.

Miss Ethel Hille, of Clifton, is visiting in Urbana, as the guest of Mr. and Mrs. Edward McConahy.

Mr. and Mrs. Isaac Davis of Clifton, are the parents of an eight-pound son, born Tuesday. The child has been named Daniel Edward.

The Misses Doris Whittington, Edith Lewis and Jane Bell, spent Wednesday in Dayton.

Mrs. Arthur Perfect who has been spending the past week with Mrs. Nelle E. Schuster, West Market Street, left Thursday for her home in Fort Wayne, Ind.

Mrs. Isabelle Adams of near Paintersville, is critically ill, suffering from hemorrhages of the stomach. Her condition is thought serious on account of her age.

Mrs. Rose Cramer and son Homer of Fort Wayne, Ind., and Mr. and Mrs. Frank Kuhlander and children, Roy and Marjorie of Dayton were the week end guests of Mrs. Cordelia Harness and son Ralph of the Jasper Pike.

Mrs. Edgar Reeves, North West Street, returned home from Cincinnati, where she spent several days. During her stay, she broadcast, from radio station WLW.

MODISH MITZI—The Goofer Packs For A Weekend

By JAY V. JAY

The Goofer is packing for a weekend. The fact that he is taking ten pairs of socks is merely because he can't decide between them. And at the last minute he might feel more favorably disposed toward the diamond pattern than the dot and dash design or the clocked variety. A

"What's this," says Dad thereby making life's great struggle more strugglesome. It's the striped jersey bathing suit that is the pride of the Goofer's heart. And he has left it out. There's not a corner not a fraction of an inch in the suit case for it. It's not the swim he regrets. He can get a swim most any day—but a bath-

man, you know, well, a man is privileged to change his mind—in the matter of clothes. If the Goofer didn't want to wear a conservative necktie like the striped one over the top of his suitcase, why, he'd naturally want the futurist kind that is next to it.

ing suit as handsome as this is not an every day matter. The week end will begin unless Dad offers to take the suit in his luggage. Kind heared Dad. He's saying: "My boy, I know how you feel" Dad can remember some handsome bathing suits in his past.

## SURGEONS BESTOW MASTERFUL JAW ON MAN WITHOUT CHIN

New York, June 3.—There is hope for the man with a receding chin.

No longer need he travel life's byways depressed by the thought that Nature has stamped him as a being of weak character.

Through the science of orthodontics, he may take his place in the world as a man among men—a person with a virile and aggressive chin.

New York physicians and surgeons are discussing an article which explains this surgical revelation and which appeared in the last issue of The Lancet, the authoritative English medical journal.

"By means of a special plate," says The Lancet, "it is possible to throw the lower jaw forward, so that the molar teeth meet in their proper position."

This plate has the effect of making the patient bite forward, with the result, in most cases, the article asserts, that the receding chin eventually becomes normal.

A receding chin, The Lancet points out, is of great moment to whoever has one.

"The individual of strong character," continues The Lancet, "or who is favored by fortune, may be able to survive the handicap of a receding chin, but to many a lesser person it must often prove a real hindrance in the stress of competition."

The Lancet finds that a person with a receding chin, "being regarded as weak, is treated as such and may end up by becoming what his fellows assume him to be."

**ANCIENT ERA**  
Responsibility for the belief that a protruding chin represents character is carried back by The Lancet to the beginning of animal life.

"The prognathism (projecting jaw) of primitive man and his ape-like forebears carried with it an appearance of ferocity. In time, as man became more civilized, this impression of animal power, associated with massive jaws, became transmuted into an impression that a strong jaw represented strength of will and decision."

## RHEUMATISM LEAVES YOU FOREVER

Asserts James H. Allen, Who Drove Out Rheumatic Poisons After Being Crippled for Years.

Mr. James H. Allen, of 26 Forbes St., Rochester, N. Y., suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery which

he called Allenrho. to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers.

"The blessed relief this marvelous prescription quickly gives has made for it thousands of friends," says Soh's Drug Store, who has been appointed agent in your city. It is Mr. Allen's own discovery. Adv.

Now it is possible for some of the most obstinate cases of deafness to be relieved in a day's time by the application of a prescription formerly known as Rattle Snake Oil. This treatment is meeting with wide success all over the country.

Mr. Ben Jackson, who lives in Indiana, says, "Before I used Virex I could hear nothing. After ten days I could hear my watch tick."

Angeline Johnson, a Mississippi resident had been stone deaf for eighteen years. She says, "Virex has stopped my head noises and I can hear the train whistle 3 1-2 miles away."

Boy Fisher, Iowa man, says, "I hadn't heard a watch tick for eleven years—now I can lay my watch on the table and hear it plainly."

Mr. W. A. Lumpkin, of Oklahoma, says, "After being deaf 38 years, I used your treatment only a few days and hear fairly well."

Mr. Anthony Chapman, of Michigan, says, "The terrible head noises have stopped entirely and my hearing is practically back to normal."

Mrs. Ola Valentine, of Arkansas, says, "My little boy, now 5 years old, had been deaf since about 4 months of age. Now he hears very well and is learning to talk."

Mr. Mather Pelleys says, "My young son, deaf for years, has used Virex for only three days and he hears almost as well as ever before."

Such amazing reports come from all over this country and Canada. The prescription which is known as Virex is easily used at home and seems to work like magic in its rapidity on people of all ages.

So confident are we that Virex will restore your hearing quickly, and to introduce this remarkable treatment to a million more sufferers, we will send a large \$2.00 treatment for only \$1.00 on delivery on ten days' free trial. If the results are not satisfactory the treatment costs nothing.

# FISHERMEN WILL BE GIVEN TIME TO GET ANGLERS' LICENSES

Greene County and Ohio rod and reel fishermen will not be subject to prosecution under the new angler's law until they have been given ample opportunity to purchase the new licenses, the State Department of Fish and Game has stated officially.

Attorney General C. C. Crabbe had previously ruled that the law became effective April 16.

Local anglers under the age of eighteen may fish without prosecution, under the provisions of the law known as Amended Senate Bill No. 4. Fishermen above this age limit must procure licenses.

Supplies of licenses will be sent to the different counties early next week, it is said.

It is not known whether the enactment of the anglers' law was in any way influenced by a recent declaration of President Cal Coolidge that fishing was a sport for youth alone and not for elders. The new law hits at the older fishermen and exempts the youthful sportsmen, however.

## BRINGING UP FATHER

## MICHAEL'S MARRIAGE

By MICHAEL

### CHAPTER LX.

Lilah lay silent, as if asleep, until Michael sat on the edge of the berth, in pajamas and dressing gown, finishing a nightcap cigarette. Then she turned over her eyes blinking at the light.

"I may as well tell you, Michael, that I am a jealous woman."

He gave a little expression of impatience.

"I won't ever mind your jealousy if there is any real cause. But your conduct tonight has been absurd. I wouldn't have been out on the platform if I had known she was coming back. You acted as if I had made an engagement with her."

Lilah smiled slightly.

"Forgive me, Michael. But you're so handsome and desirable I don't see how any woman can resist you."

"Stuff. That's what every married woman thinks on her honeymoon."

"I'll always think so, Michael. She offered her lips to be kissed. 'Only I wish you wouldn't smoke in our bedroom.'"

"Very well, dear, I won't."

He arose and rinsed his mouth.

"Turn out the light, dear. I want to see the stars." She let up the shades and gazed out into the inky darkness. No stars were visible.

"It must be terribly lonely out here," she said.

"That is what I was thinking today. Yet I suppose the people who live out here would be uncomfortable if they had to live in the close confinement of the cities."

"Just think, you wouldn't see a girl more than once a month, or year."

He smiled, thoughtfully. When he spoke there was no mistaking his seriousness.

"I may as well tell you dearest that I'm not going to refuse to look at a pretty woman just because I'm married. And I won't expect you to close your eyes if we should happen to see Ronald Colman, or Thomas Meighan, or Glenn Hunter wandering around in Hollywood."

She smiled in silence. The pale light beating through the windows enabled him to see her eyes. To him they were dark pools of mystery. He had a feeling that he didn't know her at all; that they were strangers thrown together by accident.

"I don't think it's too much to ask absolute fidelity of the person you are married to—fidelity in thought as well as in action. If you ever are untrue to me, I'd rather let it be done openly than behind my back or in your mind."

"Dearest! Whatever is putting such thoughts into your head?"

"I know I shouldn't be thinking about such things, but I am. I'm afraid the time will come when I will not mean to you all that you say I do now."

He felt forced to laugh.

"Until a woman marries a man, she's afraid she won't get him; after that she's afraid she'll lose him."

"A crude epigram, but I suppose it is true."

He yawned involuntarily.

"I'm going to sleep." He bent over and kissed her. She would not allow him to release his lips for some minutes, but clung to him, as if it were a matter of life and death.

They reached Los Angeles at 2:20 in the afternoon the next day and immediately went to their hotel, a massive city in itself. Awaiting them were a stack of telegrams and a letter. The telegrams contained congratulations and foolish messages from folks at home; the letter was more of a surprise. It was from Lilah's Aunt Mary, a person regarding whom Michael had heard but little.

"Dear Children," she began, familiarly, "I am enjoyed at the news of your wedding. I regret that I couldn't be there, for I know it must have been perfectly lovely. I'm spending the winter here. I have a little house in Beverly Hills and you two simply must come out here. It would never do for you to be cooped up in a hotel. Telephone me just as soon as you get to town—Beverly Hills 0967."

"I'm afraid we're done for," Michael groaned, handing him the note. "She'll never let us escape her. It looks like you'll never escape my kin folks, my dear! But don't frown so, please."

(To be continued.)

## Shorty Says

There's a lot to be said about Press Agenting and you've got to SAY a lot to BE one!

If I could get Kohl to TELL me WHY he's in the Tire and Battery Business it would make my job a heluva lot simpler, but Kohl just smiles or grunts when I ask him why he sweats so much and after awhile I find I've been nudged out on the side walk and after awhile stray dogs get to mistakin' me for a post office so the only thing left for me to do is go away and find a place where I can eat comfortable.

I'm commencing to suspicion that Kohl is in the game to MAKE MONEY! 'Sfact! I snuk over to the hardware store and whispered to Mel about my suspicions and he said:—"Naw, naw, what's eatin' you? The very idea! Johnny wouldn't do a thing like THAT! He's just a natural lover of good tires and its his ambition to see every one in Greene County riding on HIS tires and using HIS breed of batteries."

So I trickled in the drug store and saw Doc Sayre and after pointing out my suspicions, he thought awhile and called up the ice house, inquiring if every one in Xenia were in swimming and finding out that they were, he leaned back contentedly in his chair and said:

"Shorty, I ust to wonder the same thing. Now days, however, I've come to the conclusion that Kohl is a philanthropist and if you want to call him that in your Press Agenting this week, I'll show you the best way to spell it.

So there you are: P. S. Johnny wants to use the rest of this space to brag about some of his tires. S'all right with me.
